## What Makes FDL Consulting So Different?

[body]

FDL Consulting excels in helping firms like yours navigate transitions. We know how hard it is to lead an organization through changes and have helped small and growing companies solve their most frustrating people and systems problems.

FDL Consulting is owned by Fanta Lewis, HR Director and Consultant. Fanta has helped to lead organizations through change for decades and as such is not afraid to take risks or think outside the box. She's coached dozens of employees and senior managers to help them resolve conflict, nail job interviews, be more empathetic leaders and find joy and purpose in their work. Fanta's gift for quick, creative problem-solving and passion to lead the way in improving how things are done have resulted in her promotion to leadership positions, including HR roles, early in her career. Since then she's gone on to pioneer and direct an HR department for a fast-growing organization in the nonprofit sector. Read Fanta's full story [text linked to About Page]

People are the most important resource in any organization. If employees don't feel empowered at your company, they'll look elsewhere to find the advocacy and support they need to thrive. Once the right frameworks are created, your business will grow and your team will be inspired to achieve their full potential.
